

Post Observation Planning Document
Anywhere High School
2014-2015 School Year

Teacher:	Form Used:
Date of Observation:	Date of Conference:
Time of Observation:	Time of Conference:
Observer:	

1. Share with me your feedback on how you think the lesson went with your students? Comment on environment (interactions, culture, climate, procedures, student behavior) and instructional delivery (activities, groups, materials & resources, student engagement). To what extent were they effective? What would you change?
2. Did students engage in your lesson? Did they achieve your intended learning outcomes? How did you measure or assess progress?
3. How important is teacher-student feedback and student-teacher feedback? How did you incorporate feedback into your instruction? How does/should feedback change or impact your instruction?
4. Data Share and Reflections: (Observer reviews the Walk-Through Document and data collected during the observation.) Please share your reflections and comments regarding the observation? How will this impact your instructional planning?
5. If you had the chance to re-teach this lesson again with the same students, what would you change, continue and eliminate?
6. What resources or support do you need from the leadership team or your department?
